**Doctors without Borders**

Amid the Parisian upheavals of May 1968, a group of young doctors decided to go and help victims of wars and major disasters. This new brand of humanitarianism would reinvent the concept of emergency aid. They were to become Médecins Sans Frontières (MSF), known internationally in English as Doctors Without Borders.

**It ain't easy being green...but we try to make it easy for you.**

Since our Congregation began recycling e-waste with Planet Green, we have received **\$420.77**, and Treasurer g.g. gordon just sent in another full box of used ink cartridges, cell phones, cords, and cameras.

So, this program benefits both the environment and the Congregation! Thanks to all of you who have kept the recycling boxes full!

Please keep bringing in your no longer needed small electronic items and computer ink cartridges, and we will continue to work for planet health and put some extra cash in the Congregation's pockets as well.

The recycling boxes have been moved from the vestibule to the kitchen, so please place your items in the boxes there. Thanks!
